

**Early Notice and Public Review of a Proposed
Activity in a Wetland
Portona Drainage Improvements Project**

February 11, 2026

County of Volusia
1578 N. Woodland Blvd
DeLand, FL 32720
(386) 943-7029

To: All interested Agencies including HUD, FEMA, and other State and local agencies, Groups and Individuals

This is to give notice that the Volusia County Office of Recovery and Resiliency has determined that the following proposed action under the U.S. Department of U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant-Disaster Recovery (CDBG-DR) is located in the 100-year floodplain and in freshwater pond habitat and the Volusia County Office of Recovery and Resiliency will be identifying and evaluating practicable alternatives to locating the action in the floodplain and the potential impacts on the floodplain from the proposed action, as required by Executive Order 11988 in accordance with HUD regulations at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management and Protection of Wetlands.

The proposed project area is a developed residential neighborhood with two undeveloped and vegetated areas. The undeveloped area to the north of Charles Street is bordered to the east by railroad tracks. The proposed project is the development of two new stormwater ponds and upgraded piping to increase system capacity. The project includes the construction of a 9.7-acres stormwater pond south of Charles Street and a 1.1-acre pond north of Charles Street. The project also includes inflow structures (mitered end sections) routed from new stormwater collection system, and drainage control structure with discharge weir with discharge to ditch on west side of railroad tracks; and approximately 5,000 feet of new or upgraded stormwater collection system.

Action within the railroad right-of-way would include rehabilitation of culvert, remove and replace the end wall on each side of the railroad tracks, and installation of a backflow prevention device in each culvert.

The proposed project would increase stormwater retention capacity for the surrounding area.

The estimated total project cost is \$4,930,000.

There are three primary purposes for this notice. First, people who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Commenters are encouraged to offer alternative sites outside of the floodplains, alternative methods to serve the same project purpose, and methods to minimize and mitigate impacts. Second, an adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about floodplains can facilitate and enhance Federal efforts to reduce the risks and

impacts associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk.

Written comments must be received by the Volusia County Office of Recovery and Resiliency at the following address on or before 5:00pm on January 27, 2026. Comments can be sent to the County at 1578 N. Woodland Blvd. De Land, FL 32720-4213 and phone number 386-717-2831, Attention: Melissa Dewall. A full description of the project may also be reviewed at, or copies requested from, the Volusia County Office of Recovery and Resiliency from the hours of 8:00 am to 5:00 pm at 1578 N. Woodland Blvd. De Land, FL. Comments may also be submitted via email to Melissa DeWalt, Office of Recovery and Resiliency, at mdewall@volusia.org.

THE AMERICANS WITH DISABILITIES ACT

Pursuant to Title II of the ADA, Volusia County does not discriminate against qualified individuals with disabilities in providing or conducting its services, programs, or activities. Anyone requiring an auxiliary aid or service for effective communication, or a modification of county policies to participate in a meeting or other event, should contact the County's ADA Title II Coordinator, Mr. Jim Corbett at (386) 246-1760 no later than 2 days before the event or meeting.
